**EPA Announces Next TSCA SACC Meeting.** In website and listserv announcements posted March 30 and in a Federal Register notice planned for publication April 3, EPA announced that the Toxic Substances Control Act Science Advisory Committee on Chemicals (TSCA SACC) will meet April 27-30, 2020, to peer review EPA's draft risk evaluation for asbestos. This will be a virtual public meeting, with participation by phone and webcast only, and there will be no in-person gathering for this meeting. The TSCA SACC provides EPA independent advice and recommendations on the scientific basis for risk assessments, methodologies, and pollution prevention measures and approaches for chemicals regulated under TSCA. At the meeting, the TSCA SACC will review EPA's draft risk evaluation and associated documents

Dear Colleagues,

Here is a link to a draft of the Administrator's Weekly Report for April 3. It is a Word document in SharePoint and includes items from last week's report that are still relevant. (Potential items are also listed below in a table.) Please edit the existing items and insert blurbs on anything else that should be listed. If you would prefer, you can continue to submit your updates and blurbs in a Word document or in e-mail text.

Again this week, weekly report items are due to OCSPP IO by 9:00 on Wednesday, April 1. Please notify me and Tom Tyler if you make an update to the SharePoint document and cc: Derrick Bolen, Mary Hanley, Melissa Grable, Cheryl Dunton and Allison Dennis. Send Word documents and e-mail text submissions to the same people.

Thank you for trying to use SharePoint to compile the weekly report. Please let us know if you have questions or need anything else. We also welcome other suggestions in the spirit of continuous improvement.
